---

---

---

## Extract (Grade 2)

Q.1.

Sea creature	What kind of animal is it?	What does it eat?	How does it move?	Interesting fact
Great white shark 	fish	any animal in the sea	swims with its fins and its tail	<b>drowns</b> if it stops swimming
Leatherback turtle 	<b>reptile</b>	jellyfish	flaps its <b>flippers</b> in the water drags itself on land	grows over 2 metres long
Emperor penguin 	bird	fish	<b>waddles</b> on its feet or slides on its tummy uses its wings as flippers to swim	stays underwater for 20 minutes

Q.2

### Over in the Jungle

Hanging from a heavy vine  
Lived a super-slow sloth  
And her little sloths nine.  
"Creep," said the mother.  
"We creep," said the nine.  
So they crept, then they slept  
Hanging from a heavy vine.

Over in the Jungle  
In their rainforest den  
Lived a father howler monkey  
And his little howlers ten.  
"Hoot," said the father.  
"We hoot," said the ten.  
So they hooted and they hollered  
In their rainforest den.

Marianne Berkes

Q.3.

## What Is the Internet?

The Internet is made up of **computers** all around the world. These computers are connected by **telephone lines** or **cables**. The Internet lets computers communicate with one another. A computer that has an Internet **connection** can do two things:

- Send information to other computers that are part of the Internet
- Receive information sent by other computers on the Internet

Not every computer is connected to the Internet. People have to pay money each month to have their computer connected to the Internet.

### How Do People Use the Internet?

When people go online, they are connected to the Internet. Here are some different ways people use the Internet:

- To learn information from **web sites**
- To play computer games-
- To share information and photographs with others
- To send and receive **e-mail messages**
- To shop for things

People can use the Internet to send e-mail to friends far away.
